11.11 SEASONAL SALE

Integrated Marketing Strategy | 2026

SAVERZ SUPERMARKET • Pakistan • 11–13 November 2026

Campaign platform: “Save More, Celebrate More!”

Prepared as a proposed academic marketing plan. All offers, media rates, inventory categories, vendor arrangements and targets are illustrative and subject to SAVERZ management confirmation.

1. Executive Summary

The 11.11 campaign positions SAVERZ Supermarket as a convenient destination for everyday shopping and seasonal value. A coordinated mix of earned media, creators, outdoor visibility, paid digital, B2B outreach and in-store activation will build awareness before the sale, drive visits during 11–13 November and encourage repeat purchase afterward. The plan uses the supplied SAVERZ logo and its red, blue and white identity.

2. Objectives, Audience and Offer Framework

Objective	Approach	Illustrative KPI
Awareness	Reach local shoppers across paid, owned and earned channels	1.2m–2.0m impressions; 300k–500k reach
Engagement	Encourage saving, sharing and enquiries	3–5% engagement rate
Traffic & footfall	Move shoppers from media to store / verified website	8k–15k landing visits; store visits tracked vs baseline
Sales	Increase transactions and basket size	+10–20% sales uplift vs comparable baseline (target)
Retention	Convert first-time shoppers into repeat customers	1,000 opt-in contacts; 10% return-visit target

Primary audiences: family grocery shoppers, value-seeking young adults, working professionals, nearby residents and existing loyalty customers. Secondary audiences: offices, schools, restaurants/caterers, residential communities and corporate procurement teams.

Creative offer architecture (proposed, not confirmed): selected grocery essentials up to 50% off; fresh produce up to 45%; beauty/personal care up to 40%; dairy/bakery/breakfast up to 35%; household/cleaning up to 40%. Use “up to” only after SKU-level prices, quantities, dates, exclusions and legal copy are approved. Do not imply that every item is discounted.

3. Positioning and Messaging

- Master message: SAVERZ 11.11 Seasonal Sale — Save More, Celebrate More!

- Dates: 11–13 November 2026; primary CTA: “Shop Now” or “Visit SAVERZ”.
- Visual system: original SAVERZ logo; red, navy blue and white; strong 11.11 headline; product-led imagery; readable terms.
- Core promise: convenience, variety and accessible value without unsupported product or price claims.
- Landing destination: verified official website or campaign landing page, if one exists; otherwise direct to confirmed store details.

4. PR and Community Relations

Tactic	Execution	Timing	Estimated PKR
Press release & media kit	English/Urdu release, approved images, spokesperson Q&A; distribute to relevant local outlets	3–7 Nov	120,000
Local media engagement	Pitch community-shopping story and verified 11.11 offer information; host one small briefing	6–10 Nov	180,000
Community partnership	Coordinate with a verified local community organization for a shopping-awareness activity; no donation claim unless approved	8–13 Nov	150,000

PR measurement: placements, earned reach, message accuracy, referral visits and share of voice. Avoid paid editorial disguised as earned coverage; disclose sponsorships.

5. Influencer Marketing

Proposed named outreach shortlist: Food Fusion, Rana Hamza Saif and Aaniat Khalid. These are examples for academic planning, not confirmed partners. Validate fit, audience geography, engagement authenticity, rate cards and availability before selection.

Proposed creator	Deliverables	Window	Illustrative PKR
Food Fusion (@foodfusionpk)	One 45–60s recipe / grocery-basket reel + 3 story frames; show approved pantry products and sale dates	8–13 Nov	250,000
Rana Hamza Saif (@ranahamzasaif)	One 45–60s store walkthrough reel + 3 stories; highlight verified value picks and location	8–13 Nov	220,000
Aaniat Khalid (@aaniatblog)	One 30–45s family basket / essentials reel + 3 stories; explain offer exclusions and CTA	8–13 Nov	190,000
Creator coordination	Briefing, contracting, approvals, tracking and reporting	1–15 Nov	100,000

All creator content must disclose paid partnerships clearly. Provide approved prices/offer terms, a trackable link or code and no guarantee of stock availability. Evaluate view-through rate, saves, link clicks, code redemptions and cost per engaged user.

6. Billboard, Signboard and On-Site Branding

Placement	Execution	Flight	Estimated PKR
2 local billboards	Short headline, dates, SAVERZ logo, direction/verified store location	1–13 Nov	700,000

6 directional signboards	Compliant placements within catchment; include directions only if verified	5–13 Nov	210,000
In-store POS & window branding	Entrance vinyl, aisle wobblers, shelf talkers, checkout messaging	7–13 Nov	190,000

Outdoor inventory, dimensions, municipal permissions and final locations are subject to vendor quotations and approval. Prioritize locations with a plausible route to the store rather than broad untargeted coverage.

7. Digital Marketing: Channels, Schedule and Costs

Channel / activity	Targeting and creative	Schedule	Estimated PKR
Meta ads: Facebook + Instagram	Teaser, category reels, carousel and conversion/traffic creatives; geo-target verified catchment	1–13 Nov	900,000
Google Search / Maps ads	Intent keywords, location extensions and approved directions	5–13 Nov	300,000
Short-form video boosts	High-performing vertical creator/store videos	8–13 Nov	180,000
Website / landing page setup	Hero banner, offer terms, UTM links, mobile QA and analytics	26 Oct–7 Nov	160,000
Email / opt-in messaging deployment	Segmented launch reminders and post-sale follow-up; consent-only	8–17 Nov	75,000
Content production	Static variants, reels, resizing, copy and approval rounds	26 Oct–10 Nov	240,000
Tracking & reporting	Pixel/GA4 where applicable, UTM taxonomy, dashboard, daily checks	26 Oct–17 Nov	85,000

Suggested paid-media pacing: 20% teaser (1–7 Nov), 25% countdown (8–10 Nov), 55% sale period (11–13 Nov). Reallocate daily toward higher-performing placements based on cost per qualified visit and observed store signals. Respect local privacy and platform advertising rules.

8. B2B Marketing: Six Actionable Ideas

Idea	Audience	Activation / value proposition	Measurement
Corporate pantry bundles	Offices and SMEs	Pre-approved bulk lists for beverages, snacks and staples; quote by volume	Quotes requested; purchase orders
School & institution supplies	Schools, academies	Monthly stationery/refreshment or pantry sourcing meeting where stocked	Meetings; repeat orders
Restaurant / café procurement	Cafés, caterers	SKU availability sheet and scheduled replenishment enquiries	Qualified leads; recurring revenue
Residential community tie-ups	Housing societies, building managers	Resident shopping-day partnership with opt-in communication	Participating households; redemption
Employee benefit partnerships	HR departments	Staff shopping voucher or discount code only after commercial approval	Employers onboarded; redemption
Event and gifting hampers	Event planners, companies	Customizable seasonal grocery/gift hampers subject to inventory	Hampers quoted; average order value

B2B process: build a verified prospect list → send a short introduction → schedule discovery calls → issue SKU-based written quotations → obtain purchase order → arrange fulfillment → follow up for repeat supply. Assign a sales owner and maintain a simple CRM sheet. No credit terms or guaranteed supply without management approval.

9. Pop-Up Stalls and Customer Engagement

Activity	Customer experience	Dates	Estimated PKR
Entrance sampling / demo stall	Approved FMCG samples with vendor consent, food safety and hygiene controls	11–13 Nov	220,000
Spin-to-win / receipt activity	Non-cash gifts or approved vouchers; transparent eligibility and rules	11–13 Nov	140,000
Photo moment + social sharing	Branded backdrop, optional hashtag photo participation; explicit photo consent	11–13 Nov	90,000
Promoter / queue support	Wayfinding, product discovery, opt-in signup and crowd management	10–13 Nov	160,000

Engagement safeguards: publish participation terms; avoid misleading prize claims; offer a no-purchase entry route if required by applicable rules; never collect phone numbers without consent; use child-safe and accessible participation methods.

10. Three Strategies: Pros, Cons and Decision

Strategy	Advantages	Limitations / risk	Mitigation
Performance-led digital	Measurable, flexible, geo-targeted, fast creative testing	Ad fatigue; attribution gaps for physical purchases	Frequency caps, holdout comparisons, promo-code tracking
Influencer + PR credibility	Social proof, relatable demonstrations, potential earned attention	Creator fit risk; earned coverage not guaranteed	Vet creators; approve scripts; disclose partnerships
Outdoor + in-store activation	High local visibility; close to purchase moment	Higher fixed costs; limited precise attribution	Prioritize catchment; QR/short URLs; footfall counts

Recommendation: combine all three, with digital as the optimization engine, influencers/PR as trust builders and outdoor/in-store as the footfall bridge. Avoid relying on one channel.

11. Campaign Timeline and Responsibilities

Dates	Phase	Key work	Accountable owner
20–25 Oct	Discovery / approvals	Confirm locations, products, offers, stock, legal terms and KPIs	SAVERZ management + agency lead
26–31 Oct	Production	Creative system, website setup, media reservations, creator contracting	Creative + media teams
1–7 Nov	Awareness	PR outreach, teaser ads, outdoor launch, creator previews	PR + digital leads
8–10 Nov	Countdown	Daily reminders, creator releases, offer FAQs, in-store checks	Digital + store operations
11–13 Nov	Live sale	Paid-media optimization, pop-ups, customer service, stock updates	Store manager + campaign lead
14–17 Nov	Retention / analysis	Thank-you messaging, opt-in follow-up, reporting and lessons	CRM + analytics lead

12. Measurement Framework

KPI	Method / source	Cadence
Reach, impressions, frequency	Platform dashboards; deduplicated where feasible	Daily
Engagement rate, saves, shares	Organic + paid post analytics	Daily
CTR, CPC, landing sessions	UTMs, platform analytics, GA4 if installed	Daily

Store footfall and conversion	Door counter / manual counts; POS transactions	Daily
Revenue, basket size, margin	POS sales vs comparable baseline; category analysis	Daily + final
Creator contribution	Tagged links, disclosed promo codes, creator insights	After each post
B2B leads and orders	CRM stages, quotes, confirmed purchase orders	Twice weekly
ROAS and incremental return	Attributed sales plus cautious baseline/holdout review	Final report

Baseline design: compare with similar weekdays and a pre-campaign period, accounting for seasonality and promotions. All KPI figures in this proposal are targets, not actual results; report actuals only after campaign completion.

13. Itemized Estimated Marketing Budget (PKR)

Line item	PKR estimate
PR release and media kit	120,000
Local media engagement	180,000
Community partnership	150,000
Food Fusion — illustrative placement	250,000
Rana Hamza Saif — illustrative placement	220,000
Aaniat Khalid — illustrative placement	190,000
Creator coordination / reporting	100,000
2 billboards	700,000
6 directional signboards	210,000
In-store POS branding	190,000
Meta paid advertising	900,000
Google Search / Maps advertising	300,000
Short-form video boosting	180,000
Website / landing page	160,000
Opt-in messaging deployment	75,000
Digital content production	240,000
Tracking and reporting	85,000
Sampling / demonstration stall	220,000
Receipt-based engagement	140,000
Photo activation	90,000
Promoters / queue support	160,000
SUBTOTAL	4,860,000
Contingency (10%)	486,000
TOTAL ESTIMATED MARKETING SPEND	5,346,000

Budget interpretation: this is a planning estimate for campaign execution and third-party/media spending, not a vendor quotation or a final agency fee proposal. Taxes, applicable platform charges, permitting, store inventory, price markdown funding and logistics beyond listed scopes require separate validation. The agency commercial proposal will be a separate deliverable to avoid double counting.

14. Risk Register and Approval Gates

Risk	Response / approval requirement
Unverified stock or discount claims	SKU-by-SKU commercial approval; clear exclusions and expiry
Brand or logo inconsistency	Use supplied SAVERZ logo artwork; approve master templates
Creator or media delays	Contract deadlines; reserve backup placements
Crowds, hygiene or safety	Store operations plan; food-safe demos; accessible queues
Weak measurement / inflated claims	UTM standards, POS baseline, no fabricated performance
Customer data misuse	Consent records, restricted access, opt-out mechanisms

15. Deliverables and Next Steps

- Approve the final store list, website destination, campaign terms, SKUs, discounts and promotional budget.
- Confirm media inventory and obtain supplier quotations before purchase orders.
- Sign off on the visual identity and 11.11 copy before publication.
- Activate channels by the dated schedule and run daily sale-period reviews.
- Deliver a post-campaign scorecard with actual spend, sales, lessons and next steps.

Document scope: marketing strategy with a creative reference appendix and a named influencer shortlist. Email templates and the separate agency costing proposal remain excluded.

Appendix A — Three Proposed Influencer Partners

These are real creator profiles selected for illustrative outreach only. No contact, consent, endorsement, booking or price quote is claimed. The allocations below are internal planning allowances, not market-verified creator fees; final quotes may require budget reallocation.

Food Fusion (@foodfusionpk)

Audience fit: Food and home-cooking audience.

Proposed deliverables: One 45–60s recipe / grocery-basket reel + 3 story frames; show approved pantry products and sale dates.

Planning allowance: PKR 250,000; tentative posting window: 8–13 November 2026.

Rana Hamza Saif (@ranahamzasaif)

Audience fit: Food discovery and local shopping audience.

Proposed deliverables: One 45–60s store walkthrough reel + 3 stories; highlight verified value picks and location.

Planning allowance: PKR 220,000; tentative posting window: 8–13 November 2026.

Aaniat Khalid (@aaniatblog)

Audience fit: Lifestyle and household shoppers.

Proposed deliverables: One 30–45s family basket / essentials reel + 3 stories; explain offer exclusions and CTA.

Planning allowance: PKR 190,000; tentative posting window: 8–13 November 2026.

Influencer Outreach and Approval Workflow

- 1. Approach creators through their verified business/management contact channels; request a media kit, Pakistan city breakdown, rate card and November availability.
- 2. Confirm category suitability, content usage rights, paid amplification permission, exclusivity terms, store filming permissions and cancellation clauses.
- 3. Share an approved brief with the actual logo, dates, verified SKU/discount list, exclusions and mandatory #Ad / paid partnership disclosure.
- 4. Approve storyboards before filming, then preview the reel and stories for pricing accuracy, spelling and brand safety.
- 5. Track tagged links, unique codes (if approved), reach, engagement, saves, store enquiries and POS-linked redemptions where feasible.

Reference checks: Food Fusion — https://www.foodfusion.com ; creator identity examples: https://www.instagram.com/foodfusionpk/ ; https://www.instagram.com/ranahamzasaif/ ; https://www.instagram.com/aaniatblog/ . Verify handles before outreach. No follower counts or fees are guaranteed.

Appendix B — Poster Creative Examples

The five previously prepared 11.11 social posters are displayed together below solely as an in-document reference board. Each original social post remains a separate image deliverable. Discounts shown are proposed academic examples, not live or confirmed SAVERZ offers.

SAVERZ 11.11 | Creative Reference Board

Poster 1: Beauty & Personal Care
Proposed offer: Up to 40% OFF

Poster 2: Grocery Essentials
Proposed offer: Up to 50% OFF

Poster 3: Fresh Produce
Proposed offer: Up to 45% OFF

Poster 4: Dairy & Breakfast
Proposed offer: Up to 35% OFF

Poster 5: Household & Cleaning
Proposed offer: Up to 40% OFF

Academic mockups only. Discounts, products and availability require SAVERZ approval.

Suggested use: show this optional appendix only if the instructor requests examples of the social creatives within the strategy report. Review logo reproduction, product stock, prices and final offer terms before real-world use.
